

Unwanted pregnancy?

Information on the Counselling Services of the Canton BL

Your doctor has discussed the situation with you in detail and informed you fully about the legal regulations concerning induced abortion and also about the health risks involved. Being the affected woman, the final decision to carry your pregnancy to term, to terminate your pregnancy, or to give your child up for adoption rests solely with you.

An unplanned pregnancy can give rise to many questions, ambivalent feelings, insecurities and anxieties. If you are in a conflict situation, if you need extra time to decide or if you would like to have personal counselling in regard to your private situation, please contact the Family Planning and Counselling Centres listed below. If you decide to carry your pregnancy to term you may also contact the Social Services of the municipality where you live (see telephone directory).

► **Beratungsstelle für Schwangerschafts- und Beziehungsfragen**
(Counselling centre regarding pregnancy and relationships)

There you will receive professional counselling in psychological, social, legal and financial matters, and further help and support irrespective of your decision to carry the pregnancy to term or to have an abortion. Counselling is free of charge and confidential, also for persons under age. The counsellors are bound to professional discretion.

Beratungsstelle Liestal
